

# PLATE CARE

## Metal Plate Finisher, Cleaner, Preserver

**Plate Care** is an FCP product that is compatible with **all** metal plates – including **CtP thermal and violet**. **Plate Care** is a one step product that thoroughly cleans and finishes the plate surface. It protects the plate from oxidation during storage and may be used to clean plates on the press. Removing **Plate Care** is simple – just wipe the plate with a damp sponge or soft cloth!

**Directions: Shake before using.** Apply evenly to entire plate using a cotton pad, cheesecloth or damp sponge. To preserve plate, buff dry and store. To remove, just wipe the plate down with a damp sponge or cotton pad.

<u>FEATURES</u>	<u>BENEFITS</u>
