# PLATE CARE

## FINISHER, CLEANER, PRESERVER

### FOR ALL METAL PLATES

**Plate Care** is a one-step cleaner and preserver for any metal lithographic plate...including **CTP, Thermal and Violet plates!** **Plate Care** thoroughly cleans and finishes the plate surface, protects the plate from oxidation during storage, and may be used to clean plates on the press. Removing **Plate Care** is simple — just wipe the plate with a damp sponge or soft cloth!

#### BENEFITS:

- ◆ Provides superior protection against oxidation
- ◆ Effective on all metal plates—including CTP, Thermal and Violet
- ◆ Excellent storage solution

**DIRECTIONS: SHAKE WELL BEFORE USING!** Apply a sufficient amount of **Plate Care** with a cotton pad, cheesecloth, or damp sponge and spread evenly over entire plate. Reapply if necessary. Buff dry and store.
