

Laser Plate Deletion Pen

Burnishine LP6000 Deletion Pen works with most polyester laser plates! While some manufacturers have discontinued their laser plate pens, we believed it was important to provide customers with a pen that is effective at removing unwanted images.

Features / Benefits

- ◆ Removes images from most polyester laser plates
- ◆ Single tip pen
- ◆ High quality components for safe, efficient application
- ◆ Durable, nylon chiseled tip for long lasting performance
- ◆ Saves time and money— helps eliminate the need to remake plates

Directions: Rub lightly on area to be deleted. Wipe off with a damp cloth. Repeat as necessary on larger areas.
